Action Taken Report on Institutional Feedback from Students, Teachers, Alumni and Employers for the academic session 2021 – 22

The IQAC plays a key role in the overall development of the College by evaluating the feedbacks from different stakeholders. By analyzing the feedback responses from students, teachers, alumni and employers it identifies the areas of further improvements.

- The teachers are the most important stakeholders who can systematically show the paths of qualitative developments of the institute and the learners. Their views are also important for infrastructural development of the institute.
- For an improved learning experience the IQAC shares the department wise student feedbacks with the concerned academic departments. Concerned departments discuss those feedbacks in details and develop department specific action taken reports. The systematic responses of the current students play an important role in the qualitative outcome in the teaching learning process of the college. IQAC also considers the student feedbacks for the institute specific development plans.
- Feedbacks from different stakeholders also help to align the admission process, the infrastructural developments and outcome based education.
- These action taken reports on the basis of feedbacks are also important to create learning experiences more inclusive.

Prof. (Dr.) Nandan Bhattacharyya
